

## APPENDIX B – PROJECT EVALUATION SHEET PROFORMA

### Community Support Levy Charitable Organisations Grants Programs – 2005/2006

The “Working with Families” project as set out in the Grant Funding Agreement is now complete. The benefits to the community of the project are described in a short summary below.

Please provide dot points 50 words or less.

|   |   |
|---|---|
| Provide information about your organisation and about the aim of the project.                         | The Association of Children with Disability is a non-profit organisation, that provides support, advocacy, case management and information to families that have children with disability. The Working with Families Project is aimed at the service providers and organisations who work with these families – to build empathy and understanding. |
| Describe the project's target group or target community.  | The project's target group are families who have children with disability in Tasmania. The training package will serve families by targeting the attitudes, lack of empathy and bureaucracies that can often challenge families when they access services.  |
| How do you know if the project made a difference or change?   | The training package was piloted (for feedback) on a day support organisation. The staff who attended praised the training content and presenters for the insight they had received.  |
| How did the target community get involved?  | Two parents of children with disability involved with ACD have assisted in the development and pilot presentation. The final document will be presented to a group of parents for future consultation.  |
| How can the target community continue to support or maintain the project's results?                   | The Working with Families package will be presented by two facilitators, one of which will be the parent of a child with disability – this will be rotated among a group of parents who have input into the development of the package.   |
| Do you have any suggestions about how the Grants Program can improve to better benefit the community? | No.   |
